

## WAR HASTEN LEAGUE OF NATIONS

Senator Sherman Predicts  
Good in That Direction as  
Result of Present Conflict.

**MAKES PLEA FOR U. S.  
TO REMAIN NEUTRAL**  
Speaks at Memorial Day Exercises  
at Grant's Tomb in  
New York.

Special Dispatch to The Star.  
NEW YORK, May 30.—A prediction that the present war in Europe will hasten by years a league of nations for common defense and the rule of justice was made by Senator Sherman of Illinois, speaking today at the memorial exercises at Grant's tomb. He made a strong plea that the United States should remain neutral during the present strife and that it should take a leading part in effecting a permanent peace plan. "How often out of evil comes good," he said. "The present war will hasten by years a league of nations for common defense. Once it was called a dream. Now it is a practical reality. The highest expression of statesmanship lies in a union of nations to enforce peace. It will make the narrower patriotism of today seem like the tribal allegiance of a primeval race. The tendency of the age blazes the way to a judgment seat of nations before which justice shall rule. The sword shall be drawn only against an outlaw, never that assails a member of the league. Force is not the law of human life. Do we not protect the weak? Brutal strength is not our ruler. Humanity saves the modern world at last. It is the perfect offering of civilized man or it must be admitted the Caucasian race has failed in its mission in the world."

Let the American people prepare for the third Hague convention and throw the mighty influence of our country into the greatest issue of the civilized world. Minor nations have a right to live and hold their territory. The days of spoliation and subjugation will be made impossible. Territorial robberies by the strong will be an international crime. A nation will be able to blockade an ocean, nor the open sea be closed at the caprice of arbitrary power.

Cannot Hope All to Join.  
"The eternal operation of moral truths can be the only future basis of permanent peace. Principles remain from generation to generation while human nature is on earth. The application of principles to new conditions and novel instruments of warfare until its abolition will call for the wisest action of civilized nations and for the greatest patience of the best of men. We cannot hope that even all civilized nations will enter a league not to engage in war against each other. We may reasonably hope, however, that a sufficient number of the great powers may unite to join their military and naval armaments and their laws, nations, as civil society joins to protect itself against the lawless. In the union the potential might of their armies and navies will act as a deterrent force against the power that seeks to live and commit aggression by the sword."

This memorial is dedicated to the martial spirit of the great rebellion. Here rests all that is mortal of its silent chief. No tomb holds nobler dust. Calm in adversity, he was obedient even under injustice. His patriotism is an inspiration. His military genius lives in the art of war. He taught that the battle might come. His battles were to break the military power of his country's enemy. He had no warlike purpose, but he was right. He only made it effective that it might the sooner end. He never forgot he was shedding American blood."

Speaking again of the war today, Senator Sherman said:  
Where is now more justice in actual neutrality than in actual conflict. Joining with either belligerent in present wars strains the sympathies and weakens the force of moral blood. Loyalty to the republic, but reluctant to war against their kin across the sea. The struggle in Europe is the limitation of centuries. It is born of territorial aggression, of commercial rivalries, of racial hate, the stubborn pride and animosity of the fiefs of a thousand years. Why should our people, unless for defensive war, be drawn into the vortex of the European struggle? The United States has no quarrel with any nation. Let us cover all nations and three continents."

"All Have Trespasped Upon Us."  
"Every belligerent has either broken the laws of nations or violated the rights of humanity. In a mighty conflict to survive an actor cannot weigh carefully or foresee the results of every act. If we fought with every belligerent who has violated our rights under international law we would war with all, for all have trespassed upon us."

The age of a single nation's sway of the world has passed away. Science and invention joined with international justice will advance the horizon of nations and give them with the defensive power of all."  
"As a great neutral this republic will cast the most potent vote in the urn of nations assembled to determine and adjust the peace of the world. The highest duty of the American people can be fulfilled by peace and not by war. The greatest warrior of the future is the master of an armament who can prevent war. He need not be the captain of martial legions or vast navies that rule the seas. Economic pressure, the closing of ports and markets, the denial of credit and exchange may be more powerful than submarines or battleships or the soldier's hardened discipline that steals the human heart and smiles at human suffering. Let our nation then prepare to meet this great service, to be an instrument of mediation to an honorable and lasting peace. This republic is no longer an experiment. It has taken its place among the powers of the world."

New Conditions Have Arisen.  
"New instruments of destruction on land and sea, in earth and air, involve the helpless and innocent in a common death with combatants. New conditions under which war is waged have arisen. Who can say what international law now is on controverted questions on which some wish to go to war. We cannot write alone the restraints. Elevated violations by one belligerent against another do not justify our intervention to decree obedience to the code."

Porter's Hardwood Extension Ladders, made with 4-inch mortised frames, not the flimsy narrow frames, complete with fixtures. \$1.00 walnut-finished style, \$1.25. hope and safety for all. Take no risk of a divided allegiance springing from the support of the belligerent whose cause we adopt.  
"Lawlessness within our borders committed by overt act or encouraged by reckless speech is treason in an American and crime in an alien. The promotion of murder and arson by foreign subjects in a peaceful country cannot be sanctified by patriotism. It is criminality mingled with cowardice. No penalty can be spared in its punishment. Warning by the representatives of foreign powers ought not to be necessary to their subjects here to keep the peace. It is, however, the least that can be offered to the outraged sovereignty of the American people."

**Two Wills Filed for Probate.**  
The will of Lettie M. Harper, dated April 18, 1907, and modified by codicil of January 12, 1916, has been offered for probate. She leaves \$100 to Frank Dowling, and \$25 each to Harry Dowling, Nannie Calvert and Alice Newman. The remaining estate is devised to her adopted daughter, Mary Ellen Akers, who is also at act as executrix.

By the terms of the will of Joseph Miller, dated May 2, 1902, his entire estate is devised to his wife, Mary C. Miller. She is also named as executrix.

## RIVERS BILL O. K'D BY SENATE VOTE

Measure Which Carries an  
Appropriation of \$43,000,-  
000 Ready for Conference.

The Senate passed the \$43,000,000 rivers and harbors appropriation bill yesterday afternoon by a vote of thirty-five to thirty-two. Senator Kenyon of Iowa, who led the fight in the Senate against the bill on the ground that it was about one-half "pork," insisted today that had all the senators who opposed the measure been present and voted the bill would have been defeated. It was predicted today that unless the House agrees to the Senate amendments the bill may yet fail to pass Congress, for the Senate, if given

another opportunity to vote on the measure, probably would defeat it. The opponents of the measure were confident of defeating the bill yesterday, and they would not have let it come to a vote had they not believed they would kill it.

**Motion to Recommit Rejected.**  
A motion to recommit the bill with instructions to report out a measure carrying not more than \$30,000,000, made by Senator Smoot of Utah, was defeated by only one vote, thirty-five to thirty-four. Had the vote been a tie the Vice President would have voted to recommit, it was said today.

The bill as it passed the House carried about \$40,000,000. In the Senate yesterday twenty-three republicans and nine democrats voted against the bill; seven republicans and twenty-eight democrats voted for the bill. Senator Newlands' amendment to create a rivers and harbors commission was adopted, but later was stricken out. It proposed a commission of the Secretaries of War, Interior, Agriculture and Commerce and the chairmen of the House and Senate committees interested in the framing of waterway improvement legislation to co-operate with the board of army engineers in investigating the whole subject of waterways. It was adopted without a roll call, and with the approval of Chair-

man Clarke of the commerce committee. **Knocked Out on Point of Order.**  
The amendment which proposed an appropriation of \$500,000 was made the subject of a point of order, after Senator Stone had made a similar objection to an amendment by Senator Kenyon proposing a permanent commission to deal with the waterways problem.

Senator Stone refused to withdraw his point of order at the request of Senator Gallinger, and the latter then insisted on his point against the Newlands amendment.

Just before the final vote was taken Senator Kenyon predicted it would be the last of its kind to pass an American Congress.

"You are voting at least \$20,000,000 into this bill that is absolutely unprofitable," said Senator Kenyon. "You have had an opportunity to correct some of these abuses, but you would not. Your motto is 'Let the people squeal.'"

**Law Students and Faculty Dance.**  
Students and members of the faculty of the Washington College of Law were the guests of Miss S. Christine Quick, president of the class of 1917, at a reception and dance at Studio Hall last evening. Mrs. J. Y. Hamilton and Mr. and Mrs. Fred S. Swindell were chaperones.

## WOMAN IS SWINDLED BY TWO COLORED MEN

Mrs. Mary Ware Victim of "Pocket-book Game"—Others Complain of Robberies.

Search is being made by the police for two colored men who are wanted to answer a charge of having robbed Mrs. Mary Ware, colored, 77 K street southwest, of \$117.50. They played what the police term the "pocketbook game" on Mrs. Ware, and she proved to be an easy victim.

It was explained to the police that Mrs. Ware was at 9th and O streets northwest Sunday evening about 7 o'clock, when two colored men pretended they had found a pocketbook containing \$500. They were anxious to get the money changed, they stated, and promised Mrs. Ware \$195 if she would advance a sum of money.

The police were told that she gave the swindlers \$117.50, and was told to meet the men yesterday and get her money, plus \$195. She was on hand at

the appointed time and place, she stated, and when she reached the conclusion she had been swindled she appealed to the police and furnished descriptions of the men.

Lester F. Sonntag, 74 V street northwest, encountered a colored highwayman near 5th and O streets last night about 12 o'clock. He was on his way home, he stated, and was passing along O street when a very black colored man halted him and demanded his cash. Sonntag dealt the highwayman a stunning blow, he informed the police, and the latter quickly disappeared.

Burglars yesterday visited the residence of John F. King, 118 E street northwest, gained access to the premises by opening the front door with the aid of a key and ransacked the house. They stole \$11.50 and two gold pins. Besie Burgess, 1412 14th street northwest, reported the theft of between \$70 and \$80. The money was taken from her handbag in a garage.

**Sues Dental Firm for \$10,000.**  
William M. Le Compté has filed suit in the District Supreme Court to recover \$10,000 damages from Dr. Weyth, a corporation. He alleges that work on his teeth between February 22 and May 8, 1916, was performed "improperly," and that he was subjected to the additional expense of having said work removed and repaired. The plaintiff is represented by Attorneys M. N. Richardson and Charles S. Shreve.

## BUSINESS OF THE SENATE HALTS FOR CONVENTIONS

Only Minor Routine Will Be Transacted—House Will Keep Busy.

The Senate yesterday agreed by unanimous vote not to transact any business during the national conventions of the republican and democratic parties except such routine business as the introduction of bills and petitions, the reception of messages from the President and from the House. The resolutions adopted by the Senate provides for three-day adjournments from June 2 to June 15.

An understanding was entered into when the recess agreement was made that the Senate should dispose of the Oregon and California railroad land grant legislation before June 30. Senator Shafroth sought unsuccessfully to have the Philippine bill made the unfinished business, but the Senate voted to take up in preference the post office appropriation bill.

**Women's Fiber Silk Sweaters**  
Regular \$5.00 Values at  
**\$4.98**
